

Peerless Energy Systems is a full service, stocking distributor of industrial equipment specializing in compressors & vacuum pumps. Serving Nebraska, Iowa, and Southeast South Dakota, Peerless Energy System's commitment is to provide energy efficient products with system based engineering assistance.

We Fully service and sell parts for:

- Rotary Screw Air Compressors
- Gas Compressors & Boosters
- Compressed Air Dryers & Filters
- Reciprocating Compressor
- Rotary Vane Compressors
- Centrifugal Compressors
- Vacuum Pumps
- Blowers

PEERLESS ENERGY SYSTEMS

4601 South 76th Circle
Omaha, NE 68127

PEERLESS ENERGY SYSTEMS
RELIABLE • DEPENDABLE • RESPONSIVE

At Peerless Energy Systems we recognize the importance of providing total service for compressed air and vacuum pump systems equipment, regardless of what brand you have. We supply all types of top quality parts, including:

- compressor/vacuum pump lubricant
- oil filters
- air filters
- air/oil separators
- air ends
- valves
- gaskets
- automatic drain valves.

With the largest parts warehouses in the area and most major items always in stock, virtually any order can be filled and shipped within 24-hours. Most orders ship same day!

AIR/OIL SEPARATOR ELEMENTS

Peerless Energy Systems offers Genuine air/oil separators for most brands of rotary screw and rotary vane air compressors and vacuum pumps. We also offer separators that meet or exceed OEM specifications. We offer conventional wrapped designs, pleated designs and spin on designs. All designs provide low pressure drop and low oil carryover.

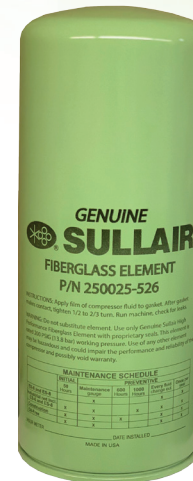

AIR FILTERS

Peerless Energy Systems offers Genuine air filters for most brands of air compressors and vacuum pumps. We also offer air filters that meet or exceed OEM specifications. The filter media used is typically either resin impregnated cellulose or synthetic polyester. The construction is either plastisol (rubber) or metal end construction, as well as the latest type of metal-free designs.

OIL FILTERS

Peerless Energy Systems offers Genuine oil filters for most brands of air compressors and vacuum pumps. We also offer oil filters that meet or exceed OEM specifications. Our oil filters are built of the highest quality materials and workmanship. Specific filtration levels are obtained through the exclusive use of high grade filter media and consistent surface area control, obtained by a strict maintenance of pleat quantity and depth. Leakages are prevented by the positive seals obtained with both plastisol and epoxy encapsulation. Viton seals are used where applications of synthetic oil are typical.

COALESCING FILTER ELEMENTS

Peerless Energy Systems offers Genuine replacement filter elements for most brands of coalescing and particulate filters. We also offer filter elements that meet or exceed OEM specifications. Our filters provide the highest level of clean, compressed air with a minimum loss of energy (pressure drop). Through the selection of the appropriate grade and materials of construction, we provide the highest quality filtration and element life.

PEERLESS ENERGY SYSTEMS LUBRICANTS

SULLUBE

Featuring an advanced formulation powered by Dow Technology. Genuine Sullube® is a long-lasting fluid that prevents the formation of varnish - the leading cause of air end failure - and keeps your compressor running exceptionally clean and cool.

PRISTINE

Pristine™ is Sullair's food grade lubricant designed to significantly outperform other food grade fluids in the market. It currently meets incidental contact approval requirements of NSF H1, Halal, Kosher, Pareve, and is registered in Canada.

**10,000 hours of life.
The most in the
industry!**

Sullair lubricants include:

- Sullube®
- 24KT®
- PristineFG™
- SRF 1/4000®
- SRF II/8000®
